510 - KENZIE ALEXZANDER

A list of the one hundred most influential people in history features descriptions of the careers, contributions, and accomplishments of the political and religious leaders, inventors, writers, artists, and others who changed the course of history. Simultaneous.

A book helping children explore personality types and learn more about who they are and how to relate to those who are different. Building on the personality work of Carl Jung, Isabel Briggs Myers, and Katherine Cook Briggs, this playful book examines different personality types and what they look like in children. 'Oh My! How We're Different' helps children understand who they are and helps them understand those who are different from them. This book trusts that as children are more deeply and authentically themselves they'll develop more capacity to be in vibrant relationships with friends, family, and neighbors who are fundamentally different from them.

Part of the CBC Massey Lectures Series In History's People internationally acclaimed historian Margaret MacMillan gives her own personal selection of figures of the past, women and men, some famous and some little-known, who stand out for her. Some have changed the course of history and even directed the currents of their times. Others are memorable for being risk-takers, adventurers, or observers. She looks at the concept of leadership through Bismarck and the unification of Germany; William Lyon MacKenzie King and the preservation of the Canadian Federation; Franklin Delano Roosevelt and the bringing of a unified United States into the Second World War. She also notes how leaders can make huge and often destructive mistakes, as in the cases of Hitler, Stalin,

and Thatcher. Richard Nixon and Samuel de Champlain are examples of daring risk-takers who stubbornly went their own ways, often in defiance of their own societies. Then there are the dreamers, explorers, and adventurers, individuals like Fanny Parkes and Elizabeth Simcoe who manage to defy or ignore the constraints of their own societies. Finally, there are the observers, such as Babur, the first Mughal emperor of India, and Victor Klemperer, a Holocaust survivor, who kept the notes and diaries that bring the past to life. History's People is about the important and complex relationship between biography and history, individuals and their times.

DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law. /div

Here is a book that will surely spark a lively debate. Who are the hundred most influential religious and political leaders, artists, scientists, and adventurers of all time? How is it even possible to construct such a list? Now, the editors of LIFE comb history, compare notes and dive in. Find out who makes the cut: King Tut or Cleopatra? Thomas Jefferson or George Washington; The Rolling Stones

or The Beatles; Steve Jobs or Bill Gates. This is a look at history told through its most charismatic and fascinating characters. It is also full of fun facts, tidbits, arguments and rarely seen pictures, and will appeal to curious minds, young and old alike.

The authors use quantitative analysis to rank the prominence of more than 1,000 of history's biggest figures, while also discussing trends gleaned from the rankings, as well as the computational methods used to determine the rankings.

Rich in detail, filled with fascinating characters, and panoramic in its sweep, this magnificent, comprehensive work tells for the first time the complete story of the American woman from the Pilgrims to the 21st-century In this sweeping cultural history, Gail Collins explores the transformations, victories, and tragedies of women in America over the past 300 years. As she traces the role of females from their arrival on the Mayflower through the 19th century to the feminist movement of the 1970s and today, she demonstrates a boomerang pattern of participation and retreat. In some periods, women were expected to work in the fields and behind the barricades—to colonize the nation, pioneer the West, and run the defense industries of World War II. In the decades between, economic forces and cultural attitudes shunted them back into the home, confining them to the role of moral beacon and domestic goddess. Told chronologically through the compelling true stories of individuals whose lives, linked together, provide a complete picture of the American woman's experience, Untitled is a landmark work and major contribution for us all.

In this mesmerizing book, TIME chronicles the fascinating lives and revolutionary times of history's 100 Most Influential People. Here are royals and revolutionaries, spiritual leaders and scientists, artists and explorers, philosophers and philanthropists. Here

are heroes and villains, Christ and the Buddha, Galileo and Einstein, Joan of Arc and Alexander the Great, Aristotle and Jefferson. Here are the individuals whose lives shaped the destinies of millions and changed history in its flight.

New York Times Bestseller A New York Times Notable Book Named one of the Best Books of the Year by the Wall Street Journal, the Economist, Foreign Affairs, and Kirkus Reviews Finalist for the National Book Critics Circle Award (Nonfiction) Shortlisted for the Cundill Prize in Historical Literature Finalist for the Los Angeles Times Book Prize (History) A San Francisco Chronicle Holiday Gift Guide Selection A New York Times Book Review Editors' Choice Selection A sweeping, "magisterial" history of the Roman Empire from one of our foremost classicists shows why Rome remains "relevant to people many centuries later" (Atlantic). In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.

The key to a harmonious, highly effective work environment is not by ensuring you work among carbon-copies of yourself whose personalities never clash with one another or with you. That pipe dream could not ever happen, nor would it result in a successful team collaboration even if it could. Instead, most of us are going to work today with individuals who at times come across as incompetent, lazy, spotlight-hugging, whiny, or backstabbing. And then tomorrow we go to work with them again . . . and again . . . and again. Like it or not, the bulk of our waking hours are spent with people at work--people who can grate on our nerves. Therefore, learning to interact effectively with difficult employees, colleagues, and bosses is an absolute essential for our success. With

Powerful Phrases for Dealing with Difficult People, anyone can learn how to confront head-on the difficult situations that can arise when dealing with these personalities, before they fester and spread. Helpful features inside this practical and easy-to-use book include: • Thirty common personality traits, behaviors, and workplace scenarios along with the phrases that work best with each • Nonverbal communication skills to back up your words • Sample dialogues that demonstrate how phrasing improves interactions • A five-step process for moving from conflict to resolution • "Why This Works" sections that provide detailed explanations- Button-pushing situations are going to come up today at work--and tomorrow too. Don't let them rent space inside of you and turning everything to mold. Instead, choose to deploy simple phrases to regain control and resolve conflicts. When you do, you, your colleagues, and your company will be all the better for it! How can a state be represented by Jesse Helms and John Edwards at the same time? Journalist Rob Christensen answers that question and navigates a century of political history in North Carolina, one of the most politically vibrant and competitive southern states, where neither conservatives nor liberals, Democrats nor Republicans, have been able to rest easy. It is this climate of competition and challenge, Christensen argues, that enabled North Carolina to rise from poverty in the nineteenth century to become a leader in research, education, and banking in the twentieth. In this new paperback edition, Christensen provides updated coverage of recent changes in North Carolina's political landscape, including the scandals surrounding John Edwards and Mike Easley, the defeat of U.S. senator Elizabeth Dole, the election of the state's first woman governor, and voters' approval of an African American candidate for president. The book provides an overview of the run-up to the 2010 elections and explains how North Carolina has become, arguably, the most politically competitive state in the South.

Shining the spotlight on a hundred men and women who really made a difference to the world's most powerful nation, this book features the lives and achievements of extraordinary Americans -- presidents and sports figures, film stars and physicists, generals and Internet mavericks -- from the age of the Founding Fathers to the present. Telling the stories of lives of men and women over the last 300 years, the book celebrates their achievements and presents a revealing history of the United States. Selected by the

editors of Encyclopaedia Britannica, the book contains surprises and insights into the personalities that created America and is bound to cause debate.

A revelatory account of how 100 influential leaders changed the world. It is often said, 'Be the change you want to see'. When Malala Yousafzai risked her life to promote education for girls, she stunned the world with her sheer grit! Such is the undaunted spirit of men and women who inspire awe and fearlessness in the masses. This book not only provides short biographical sketches of 100 greatest leaders from across the world, but also showcases inspirational stories from their lives. Leaders such as Barack Obama, Abdul Kalam, Indira Gandhi, Martin Luther King, Jr., and Abraham Lincoln have not only transformed the lives of others, but have brought about change in such a way that it continues to affect modern lives. More importantly, be it politicians, activists or statesmen, their accomplishments have as much to teach us as their failures!

From Beethoven and Kafka to George Sand, Picasso and Agatha Christie, this compilation of letters, diaries and interviews reveals the profound fusion of discipline and dissipation through which the artistic temperament is allowed to evolve, recharge and emerge. 20,000 first printing.

Since 1619, when Africans first came ashore in the swampy Chesapeake region of Virginia, there have been many individuals whose achievements or strength of character in the face of monumental hardships have called attention to the genius of the African American people. This book attempts to distill from many wonderful possibilities the 100 most outstanding examples of greatness. Pioneering scholar of African American Studies Molefi Kete Asante has used four criteria in his selection: the individual's significance in the general progress of African Americans toward full equality in the American social and political system; self-sacrifice and the demonstration of risk for the collective good; unusual will and determination in the face of the greatest danger or against the most stubborn odds; and personal achievement that reveals the best qualities of the African American people. In adopting these criteria Professor Asante has sought to steer away from the usual standards of popular culture, which often elevates the most popular, the wealthiest, or the most photogenic to the cult of celebrity. The individuals in this book - examples of lasting greatness as opposed to the ephemeral glare of celebrity fame - come from four

centuries of African American history. Each entry includes brief biographical information, relevant dates, an assessment of the individual's place in African American history with particular reference to a historical timeline, and a discussion of his or her unique impact on American society. Numerous pictures and illustrations will accompany the articles. This superb reference work will complement any library and be of special interest to students and scholars of American and African American history.

Women in Gaming: 100 Professionals of Play is a celebration of female accomplishments in the video game industry, ranging from high-level executives to programmers to cosplayers. This insightful and celebratory book highlights women who helped to establish the industry, women who disrupted it, women who fight to diversify it, and young women who will someday lead it. Featuring household names and unsung heroes, each individual profiled is a pioneer in their own right. Key features in this book include: *100 Professionals of Play: Interviews and Special Features with 100 diverse and prominent women highlighting their impact on the gaming industry in the fields of design, programming, animation, marketing, voiceover, and many more. *Pro Tips: Practical and anecdotal advice from industry professionals for young adults working toward a career in the video game industry. *Essays: Short essays covering various topics affecting women in gaming related careers, including "Difficult Women: The Importance of Female Characters Who Go Beyond Being Strong," "NPC: On Being Unseen in the Game Dev Community," and "Motherhood and Gaming: How Motherhood Can Help Rather Than Hinder a Career." *"A Day in the Life of" Features: An inside look at a typical day in the gaming industry across several vocations, including a streamer, a voice actor, and many more.

"There is no evil to be faced that Christ does not face with us. There is no enemy that Christ has not already conquered. There is no cross to bear that Christ has not already borne for us, and does not now bear with us." Pope Saint John Paul II embodied these words throughout his life. Born May 18, 1920, in Wadowice, Poland, Karol Józef Wojtyła lived in times of political turmoil. As a young man during the Nazi occupation of Poland, he studied in an underground seminary. As pope, he was instrumental in the collapse of communism in Eastern Europe. Through it all, he maintained an unwavering hope in the ultimate triumph of love, truth, and beauty. He remains a hero to millions of people for his

unflinching defense of the Church and her teachings. John Paul II changed the world in many ways; this book describes 100 of the most important. Each of the 100 accomplishments, teachings, or stories about John Paul II is fascinating, providing a glimpse into the astounding life and impact of this great and beloved saint. ABOUT THE AUTHOR Patrick Novacosky is one of America's most accomplished Catholic communicators. The winner of more than two dozen awards from the Catholic Press Association, he has edited and written for some of America's top Catholic publications. Patrick is managing partner at NovaMedia, a marketing firm specializing in the Catholic space. He met Pope Saint John Paul II five times, and he has made Pope Francis laugh out loud. Most importantly, he is a husband and father of five beautiful children.

The concept of Identity Crisis came into usage in the 1940s and it has continued to dominate the cultural zeitgeist ever since. In his exploration of the historical origins of this development, Frank Furedi argues that the principal driver of the 'crisis of identity' was and continues to be the conflict surrounding the socialisation of young people. In turn, the politicisation of this conflict provides a terrain on which the Culture Wars and the politicisation of identity can flourish. Through exploring the interaction between the problems of socialisation and identity, this study offers a unique account of the origins and rise of the Culture Wars.

Explores the subtle, secret influences that affect the decisions we make--from what we buy, to the careers we choose, to what we eat.

A lively guide to this popular card game uses scintillating stories to introduce readers to the great players, major tournaments, scandals, and strategies that make the bridge so legendary. Reprint. 20,000 first printing.

A woman diagnosed with dissociative identity disorder reveals her harrowing journey from abuse to recovery in this #1 New York Times bestselling autobiography written by her own multiple personalities. Successful, happily married Truddi Chase began therapy hoping to find the reasons behind her extreme anxiety, mood swings, and periodic blackouts. What emerged from her sessions was terrifying: Truddi's mind and body were inhabited by the Troops—ninety-two individual voices that emerged to shield her from her traumatizing childhood. For years the Troops created a world where she could hide from the pain of the ritualized sexual abuse she suffered at the hands of her own stepfather—abuse

that began when she was only two years old. It was a past that Truddi didn't even know existed, until she and her therapist took a journey to where the nightmare began... Written by the Troops themselves, *When Rabbit Howls* is told by the very alter-egos who stayed with Truddi Chase, watched over her, and protected her. What they reveal is a spellbinding descent into a personal hell—and an ultimate, triumphant deliverance for the woman they became.

Documents the stories of the three women behind the famous multiple-personality-disorder case, contending that a large portion of the story was fabricated by a willing patient, her psychiatrist and an ambitious journalist who took advantage of a public that was psychologically primed to believe their claims. By the award-winning author of *Pornography*. 50,000 first printing.

This analysis of the interplay among people and of events leading up to the reform acts of 1898--the Hundred Days--and their abrupt termination presents a new interpretation of the late Ch'ing political scene. The Emperor, the Empress-Dowager, and high-court personalities are followed through the maze of motives and relationships that characterized the power structure in Peking. Of special interest is Kwong's treatment of K'ang-Yu-Wei, often viewed as the Emperor's advisor during this period and a major source of reform policy, a prominence largely derived from his own writings and those of Liang Ch'i-ch'ao. Those sources are here examined and show to be less than objective, and K'ang's role is assessed as far more peripheral than heretofore believed. Our previous three books were well received, and we decided to write this fourth book "100 Great Personalities and their Quotations". This book is based on my collection, over many years, of quotations from many personalities. To be easy to read, the book is divided in five Chapters, and the personalities are listed in chronological order, with the name followed by the year of birth and the oldest age. At the end of the book there is an Addendum with some of my ideas and an Alphabetical Index of the personalities. There are included pictures from our travels to Rome, Italy, and other cities. I want to thank my wife Sophia for her continuous help. Let's remember what Cicero told us more than 2050 years ago: A home without books is a body without soul.

Profiling African Americans whose contributions have had a significant impact on the struggle for equality, a biographical chronicle ranks figures from the last four hundred years

An indispensable guide to understanding—and living or working with—people whose behavior leaves you frustrated and confused. We all have people in our lives who frustrate, annoy, or hurt us: workplace bullies, those who always claim to be right, or those with anxious or obsessive personalities. And most of us hurt others occasionally, too. Now, authors Dr. Helen McGrath, a clinical psychologist and professor, and Hazel Edwards, a professional writer, offer this highly readable, extremely practical guide to dealing with the difficult personalities we encounter every day—in others, and in ourselves. Taking the American Psychiatric Association's widely used Diagnostic and Statistical Manual of Mental Disorders (DSM-IV-TR) as its starting point, *Difficult Personalities* helpfully outlines over a dozen different personality traits and types, detailing their common characteristics and underlying motivations. It also equips readers with numerous strategies for dealing with difficult behavior, including:

- Anger and conflict management
- Optimism and assertion training
- Rational and empathic thinking
- Reexamining your own personality.

Readers will also benefit from sections on making difficult decisions and maintaining romantic relationships. Perfect for anyone who has ever wished that other people came with a handbook, *Difficult Personalities* illuminates the personality differences that so often serve as barriers to cooperation in the workplace and harmony at home. Praise for *Difficult Personalities* "A no-frills resource that is both easy to understand and highly informative.... McGrath and Edwards have avoided scientific jargon and created a handbook people can put to use immediately. There's nothing difficult about this book, except for the subject it gracefully explicates."—Publishers Weekly

Fiction. Translated from the Italian by William Weaver. Luigi Pirandello's extraordinary final novel begins when Vitangelo Moscarda's wife remarks that Vitangelo's nose tilts to the right. This commonplace interaction spurs the novel's unemployed, wealthy narrator to examine himself, the way he perceives others, and the ways that others perceive him. At first he only notices small differences in how he sees himself and how others do; but his self-examination quickly becomes relentless, dizzying, leading to often darkly comic results as Vitangelo decides that he must demolish that version of himself that others see. Pirandello said of his 1926 novel that it "deals with the disintegration of the personality. It arrives at the most extreme conclusions, the farthest conse-

quences." Indeed, its unnerving humor and existential dissection of modern identity find counterparts in Samuel Beckett's *Molloy* trilogy and the works of Thomas Bernhard and Vladimir Nabokov. "The perfect gift for the diehard fan in your life or an enviable treasure for yourself, *The Ultimate Yankee Book* is the most current and comprehensive resource of trivia, people and stories from the team's creation in 1901 to today. Harvey Frommer is a renowned baseball historian and the author of *The New York Yankee Encyclopedia*. In many ways, this book is an expansion and renovation of that book, adding new stories such as the Steinbrenner owners and famed recent legends such as Derek Jeter and A-Rod. But it goes beyond the first book. Far more than just stories, the book is packed with enough statistics, bests-and-worsts, oddities and assorted data to satisfy serious trivia junkies. One of the best new features is the Yankee March of Time, including essential trivia from every year, and the daring and daunting Ultimate Yankee Quiz. Test your own knowledge or that of friends and family at your next gathering or World Series party with 150 questions and detailed answers in this fun, informative quiz. Fans of the Yankees are proud to call their team the greatest of all time not only have they boasted the most World Series championships and the most players in the Hall of Fame, they're also the most hotly discussed team in the news media, social media and in books."--Publisher's description.

Instant bonding, instant communication, and how to get your network marketing prospects to fully understand and act on your message = fun! This is the most fun of the 25 skills of network marketing. Our prospects have a different point-of-view than we do. So how do we give them our message in a way they get it and enjoy it? By quickly identifying their color personality. This isn't a boring research textbook on the four different personalities. This book is a fun, easy way to know how your prospects think, and the precise magic words to say to each of the four personalities. The results are stunning. Shy distributors become confident when they understand how their prospects think. Experienced distributors have short conversations that get prospects to join immediately. Why be frustrated with prospects? Instead, quickly discover the four personalities in a fun way that you will always remember. You will enjoy observing and analyzing your friends, co-workers and relatives, and you'll see the way they see the world. It feels like you have 3-D glasses in your network marketing ca-

reer. Of the 25 skills, this is the first skill that new distributors should learn. Why? It gives new distributors instant confidence. It eliminates rejection. It helps prospects listen with open minds. It gets instant results. What could be better than that? You won't have to look for great prospects when you know the four color personalities. You will have the ability to turn ordinary people into hot prospects by knowing their color personality and by saying the right words. By using humorous, slightly exaggerated examples of the four personality traits, you will remember and use this skill immediately. Life is more fun when you are the only one with the 3-D glasses. This is the one skill that you'll use every day for the rest of your life! Get ready to smile and achieve quicker rapport and results.

Translation is at the heart of psychoanalysis: from unconscious to conscious, experience to verbal expression, internal to enacted, dream thought to dream image, language to interpretation, unrepresented to represented and transference of past to present. The book's first part discusses the question of translation, literal and metaphoric. Both linguistic and cultural translations are closely tied to specific and significant personalities who were involved in the early history of psychoanalysis and thus in the development of the IJP. There was a close relationship between the IJP and the visual arts via the Bloomsbury Group. The link between the visual arts and the IJP is indeed to be found in its logo, which is taken from a painting by Ingres. The second part of the book approaches transformations between psychoanalysis and the arts from conscious, unconscious and non-represented elements into non-verbal modes, specifically visual, poetic and musical; it also looks at the developments and transformations in psychoanalytic ideas about artistic expression as expressed within the pages of the IJP. This book will be of great interest to psychoanalysts and psychotherapists, and to those interested in the history of psychoanalysis and the IJP.

Description

A diverse collection of home cooking recipes from America's top chefs, including David Chang, Rick Bayless, Nathalie Dupree, and many more. The James Beard Award-winning Food & Dining editor of *The Washington Post*, Joe Yonan asked a hundred of America's best chefs, artisan producers, and food personalities a personal question: What do you love to cook for the people that you love? Their answers comprise this unique cookbook—the ultimate cele-

bration of contemporary American cuisine in all its glorious diversity. From well-known chefs and TV personalities like Buddy Valastro and Carla Hall to culinary revolutionaries such as Michael Voltaggio and Dan Barber, these great American culinary heroes share their most treasured home recipes. Lavishly photographed with spectacular images of food and locations from across the United States, this gorgeous cookbook highlights the very best of American food.

An understanding of psychology—specifically the psychology behind how users behave and interact with digital interfaces—is perhaps the single most valuable nondesign skill a designer can have. The most elegant design can fail if it forces users to conform to the design rather than working within the "blueprint" of how humans perceive and process the world around them. This practical guide explains how you can apply key principles in psychology to build products and experiences that are more intuitive and human-centered. Author Jon Yablonski deconstructs familiar apps and experiences to provide clear examples of how UX designers can build experiences that adapt to how users perceive and process digital interfaces. You'll learn: How aesthetically pleasing design creates positive responses The principles from psychology most useful for designers How these psychology principles relate to UX heuristics Predictive models including Fitts's law, Jakob's law, and Hick's law Ethical implications of using psychology in de-

sign A framework for applying these principles

'How are you today?' the doctor asked. 'I'm fine', was the reply. 'But Sybil isn't. She was so sick she couldn't come. So I came instead.' Sybil is the story of a woman with sixteen separate personalities, and was instrumental in influencing the definition and diagnosis of multiple personality disorder. Sybil's diagnosis has since been called into question - but, forty years after it was first published, her story remains a gripping and disturbing account of one woman's struggle for mental stability and happiness. 'Astonishing book . . . It forces you to look at yourself and the people around you in a new way.' Doris Lessing

You can go after the job you want—and get it! You can take the job you have—and improve it! You can take any situation—and make it work for you! Dale Carnegie's rock-solid, time-tested advice has carried countless people up the ladder of success in their business and personal lives. Lennie Grimaldi's *Connecticut Characters: Personalities Spicing Up The Nutmeg State* chronicles 40 years of spicy personalities from political chili peppers such as John Rowland and Joe Ganim,

to pop culture cloves Linda Blair and Ed and Lorraine Warren to habanero Hells Angels and mobsters; a journey into the underbelly of cities to the wooded terrain of wilderness warriors. The FBI and Donald Trump too.

A decadent spring break beach getaway becomes a terrifying survival story when six Miami teens are kidnapped. A pulse-pounding thrill ride from New York Times bestselling author Rachel Vincent. Maddie is beyond done with her cousin Genesis's entitled and shallow entourage. Genesis is so over Miami's predictable social scene with its velvet ropes, petty power plays, and backstabbing boyfriends. While Maddie craves family time for spring break, Genesis seeks novelty—like a last-minute getaway to an untouched beach in Colombia. And when Genesis wants something, it happens. But paradise has its price. Dragged from their tents under the cover of dark, Genesis, Maddie, and their friends are kidnapped and held for ransom deep inside the jungle—with no diva left behind. It all feels so random to everyone except Genesis. She knows they were targeted for a reason. And that reason is her. Now, as the hours count down, only one thing's for certain: If the Miami hostages can't thwart their captors' plan, no one will make it out alive. Tapping into our darkest fears while exploring issues of injustice, loss, and the courage to fight for what matters most, this thrilling read is perfect for fans of Nova Ren Suma, Becca Fitzpatrick, and Jennifer L. Armentrout.
