A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

Greeks wrote mostly on papyrus, but the Romans wrote solemn religious, public and legal documents on wooden tablets often coated with wax. This book investigates the historical significance of this resonant form of writing; its power to order the human realm and cosmos and to make documents efficacious; its role in court; the uneven spread - an aspect of Romanization - of this Roman form outside Italy, as provincials made different guesses as to what would please their Roman overlords; and its influence on the evolution of Roman law. An historical epoch of Roman legal transac-

tions without writing is revealed as a juristic myth of origins. Roman legal documents on tablets are the ancestors of today's dispositive legal documents - the document as the act itself. In a world where knowledge of the Roman law was scarce - and enforcers scarcer - the Roman law drew its authority from a wider world of belief.

Please join us as we walk through the life experiences of just one of the many individuals who desire to express their gratitude to the Lord and Savior, Jesus Christ. Finding grace and mercy; forgiveness and healing, LuAnn Caperton uses her own shortcomings, downfalls, and realizations to show you the many examples of how this God of the universe relates, sees, and cares for even the smallest of us. At age fifty, LuAnn has chosen to share this Jubilee in celebration and thanks for God's gift of His Son, Jesus Christ, and the redemption He brings to each of us. In this stack of letter-filled pages, you'll find fifty wondrous stories of how the Lord has ministered to her while walking through everyday life. "Many, O LORD my God, are thy wonderful works which thou hast done, And thy thoughts which are to us-ward" (Psalm 40:5a). LuAnn's hopes are that somewhere in these simple yet heartfelt words to follow, your hope in Christ will either be found for the first time or strengthened in some way by what you read.

"A hilarious family tale" about a modern-day mother's lifestyle crisis—and her outlandish attempts to get her family back (*Woman's Day*). Lydia Modine is sixty-one and about to come undone. Her three grown-up children have flown the coop. She hasn't seen them together in more than a year, and now her ex-husband is about to marry a woman half his age. And the insults keep coming: Lydia is stuck on a book she's writing about Detroit's car industry, which uncannily parallels her own life—out with the old model, in with the new. She's poured her soul into her family, only to be abandoned in the City of Dream Machines. But then a twist of fate introduces her to Norm, an eco-car fanatic out to remake her and the world. A "smart and funny" novel that's sure to appeal to anyone who has longed for an alternate life, *Drives Like a Dream* confirms that sometimes when you set out for a spin, the twists and turns can be perfectly rewarding—and right (*Chicago Tribune*). "A beautiful novel." —*The Washington Post*

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

? J. Andersen Niels Bohr Institute for Astronomy Physics and Geophysics Astronomical Observatory Copenhagen ja@astro.ku.dk The development of astronomy worldwide begins at the roots: Already from childhood, humans of all nations and civilizations seem to share an innate fascination with the sky. Yet, people in different regions of the world have vastly different possibilities for pursuing this interest. In wealthy, industrialised societies the way is open to a school or higher education in science, possibly leading to a career in astronomy or basic or applied space science for the benefit of the country as well as the individual. In other regions, neither the financial nor the trained human resources are sufficient to offer that avenue to the future of the young generation, or those intellectual resources to the development of their country. This book addresses ways and means by which these

obstacles can be, if not fully overcome, then at least significantly reduced.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's

also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
