The Douglas A-1 Skyraider (formerly AD) was an American single-seat attack aircraft that saw service between the late 1940s and early 1980s. It became a piston-powered, propeller-driven anachronism in the jet age, and was nicknamed "Spad", after a French World War I fighter. The Skyraider had a remarkably long and successful career, even inspiring its straight-winged, slow-flying, jet-powered ...

The Boeing EA-18G Growler is an American carrier-based electronic warfare aircraft, a specialized version of the two-seat F/A-18F Super Hornet. The EA-18G replaced the Northrop Grumman EA-6B Prowlers in service with the United States Navy. The Growler's electronic warfare capability is primarily provided by Northrop Grumman. The EA-18G began production in 2007 and entered operational service with ...

AD/A1 Skyraider Attack Bomber Historical Snapshot The Douglas Skyraider, with its straight, low-mounted, tapered wings, was the only aircraft of its time capable of delivering 8,000 pounds (3630 kilogram) of bombs with dive-bombing precision against such difficult targets as mountain bridges and hydroelectric dams.

The Zirolì A1 Skyraider is ready for flight. Batteries checked, retracts and air system checked, fuel system rehed, carburator of 3w 75 cleaned and all valves checked and spark system verified. Will test in club next wednesday and maybe fly it tht day if everything goes well.

The Douglas A-1 Skyraider First Flight 18 March 1945 The Skyraider went through seven versions, starting with the AD-1, then AD-2 and AD-3 with various minor improvements, then the AD-4 with a more powerful R-3350-26WA engine. The AD-5 was

significantly widened, allowing two crew to sit side-by-side (this was not the first multiple-crew variant, the AD-1Q being a two-seater and the AD-3N a ...

Boeing: Historical Snapshot: AD/A-1 Skyraider Attack Bomber

The Cavanaugh Flight Museum's FM-2 was one of the last Wildcats built and was accepted by the U.S. Navy only days before the official Japanese surrender in Tokyo Bay (a testament to the utility of the type). The museum's FM-2 spent most of its military career in storage at Bethpage, NY and was stricken from the U.S. Navy's inventory in 1947.
