#### **Accounting For Collaborative Supply Chain**

As part of our procurement and supply chain campaign, Simon Vaughan, Director at JCP Consultancy, explores the topic in this extended blog article.. The Problem – findings from a recent survey. A recent JCP survey, in which we spoke to over 100 people within the infrastructure industry, revealed that most people are clear about the benefits of working collaboratively.

Since 2008, a number of analysts have forecasted the demise of long-term supply chain relationships because of increased competition within the supply chains for thinner slices of the margin pie. Their premise: As markets become tighter, energy and raw materials prices increase, and as working capital becomes harder to procure, supply chain collaboration will suffer in a Darwinian struggle for ...

#### **Collaborative Principles for Better Supply Chain Practice**

Supply chain collaboration is not a fancy term for knowledge sharing, although it does require multiple organisations in a supply chain to make intelligence available to one another. Supply chain collaboration does not mean systems integration, even though integrating IT platforms with partners certainly makes collaboration more practical.

#### **Why is collaboration so important in the supply chain ...**

As outlined in our recent eBook 3 Ways to Improve Supply Chain Collaboration, this enhanced collaboration begins with connecting data. By dealing with multiple enterprise resource planning systems, modules, Excel spreadsheets and data warehouses around the globe organizations have data in more place than ever before, making end-to-end supply chain visibility impossible.

Supply chain collaboration software mainly focuses on improving the way multiple companies collaborate and improve the performance of the supply chain. So while it's a very important piece of the puzzle when trying to develop an efficient SCM system across two or more organizations, it can't replace the SCM software solutions that have numerous benefits reaching far beyond the scope of SCC ...

With the complexity brought on by rapidly expanding supply chain networks, expanding global markets for finished products, and facilities around the world supporting those growing markets, it has become absolutely essential to the optimal performance of supply chains that all involved parties are completely committed to frictionless supply chain collaboration.

Supply chain collaborative advantage is based on a paradigm of collaborative advantage (Kanter, 1994, Dyer, 2000) rather than competitive advantage (Porter, 1985). According to the collaborative paradigm, a supply chain is composed of a sequence or network of interdependent relationships fostered through strategic alliances and collaboration (Chen and Paulraj, 2004).

Collaborative Principles for Better Supply Chain Practice looks at behavioural and commercial collaborative business principles and their application by means of case studies which showcase collaboration success across the private, public and 3rd sectors.
