#### Boeing 737-800 - Specifications - Technical Data / Description

Bigger, better engine. Like Boeing's other 737 MAX models, the MAX 10 incorporates the latest technology CFM International LEAP-1B engines. Advances in engine and winglet design technologies deliver reductions in noise, carbon and NOx emissions. All of which demonstrate our mutual respect in driving positive change for the environment.

The 737 MAX family is designed to offer the greatest flexibility, reliability and efficiency in the single-aisle market. Every airplane will feature the new Boeing Sky Interior, highlighted by modern sculpted sidewalls and window reveals, LED lighting that enhances the sense of spaciousness and larger pivoting overhead storage bins.

#### Boeing: 737 MAX 10

Boeing's Next Generation 737-800 and 737-900 are the largest members of the strong selling 737 family. Unlike the other Next Generation 737s, the -800 and -900 introduce new fuselage lengths, extending 737 single class seating range out to 189, compared with 100 in the original 737-100.

The Boeing 737 Next Generation, commonly abbreviated as 737NG, or 737 Next Gen jet airplanes are narrow-body aircraft powered by two engines and produced by Boeing Commercial Airplanes. Launched in 1993 as the third generation derivative of the Boeing 737, it has been produced since 1997 and is an upgrade of the 737 Classic (-300/-400/-500) series.. It features a redesigned wing with a larger ...
