## **C2C - TIANA ADKINS**

---

This market-leading text emphasizes future consumers of psychological research, uses real-world examples drawn from popular media, and develops students' critical-thinking skills as they become systematic interrogators of information in their everyday lives.

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edi-

tion reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter.

Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination. Get Ready for the NCLEX® Examination! sections at the end of each chapter help you prepare for classroom tests and the NCLEX examination. Increased focus on safety helps you prepare for safe nursing practice, with: Safety Alert! boxes based on The Joint Commission's 2009/2010 National Patient Safety Goals Medication Safety

Alert! boxes highlighting serious and potentially fatal medication errors in infants and children New information on determining pediatric dosages and a discussion of the Pedislide system New skills include step-by-step instructions for: Bathing the Newborn Assessing the Length and Height of Infants and Children Calculating BMI Removal of a Peripheral Intravenous Catheter Using the Peak Flowmeter Using a Metered-Dose Inhaler Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts. Updated nutrition content compares commercially available infant formulas and discusses organic, natural, and dietetic foods. Nutrition Considerations boxes cover prenatal care, nutritional issues during infancy, and the crisis in childhood obesity. Memory Jogger boxes help you remember important material with mnemonics, tips, and tricks. An updated glossary is available in the textbook, as well as on the companion Evolve website.

Welcome to Explorations and biological anthropology! An electronic version of this textbook is available free of charge at the Society for Anthropology

in Community Colleges' webpage here: [www.explorations.americananthro.org](http://www.explorations.americananthro.org)

Now in its Ninth Edition, this comprehensive all-in-one textbook covers the basic LPN/LVN curriculum and all content areas of the NCLEX-PN®. Coverage includes anatomy and physiology, nursing process, growth and development, nursing skills, and pharmacology, as well as medical-surgical, maternal-neonatal, pediatric, and psychiatric-mental health nursing. The book is written in a student-friendly style and has an attractive full-color design, with numerous illustrations, tables, and boxes. Bound-in multimedia CD-ROMs include audio pronunciations, clinical simulations, videos, animations, and a simulated NCLEX-PN® exam. This edition's comprehensive ancillary package includes curriculum materials, PowerPoint slides, lesson plans, and a test generator of NCLEX-PN®-style questions.

#### SAT MATH TEST BOOK

Essential Human Virology is written for the undergraduate level with case studies integrated into each chapter. The structure and classification of viruses will be covered, as

well as virus transmission and virus replication strategies based upon type of viral nucleic acid. Several chapters will focus on notable and recognizable viruses and the diseases caused by them, including influenza, HIV, hepatitis viruses, poliovirus, herpesviruses, and emerging and dangerous viruses. Additionally, how viruses cause disease, or pathogenesis, will be highlighted during the discussion of each virus family, and a chapter on the immune response to viruses will be included. Further, research laboratory assays and viral diagnosis assays will be discussed, as will vaccines, anti-viral drugs, gene therapy, and the beneficial uses of viruses. By focusing on general virology principles, current and future technologies, familiar human viruses, and the effects of these viruses on humans, this textbook will provide a solid foundation in virology while keeping the interest of undergraduate students. Focuses on the human diseases and cellular pathology that viruses cause Highlights current and cutting-edge technology and associated issues Presents real case studies and current news highlights in each chapter Features dynamic

illustrations, chapter assessment questions, key terms, and summary of concepts, as well as an instructor website with lecture slides, test bank, and recommended activities

A proven approach preferred by LPN/LVN educators and students for more than 50 years, Rosdahl's Textbook of Basic Nursing, 12th Edition, has been thoroughly revised and updated to equip today's LPN/LVN students with the foundational knowledge and skills to confidently pass the NCLEX-PN® and deliver safe, effective care. This engaging, easy to read, highly visual text reflects up-to-date clinical practices and provides the perfect learning package to ensure understanding and help students confidently transition to clinical practice.

This book "covers the following topics in business: Teamwork; economics; ethics; entrepreneurship; business ownership, management, and leadership; organizational structures and operations management; human resources and motivating employees; managing in labor union contexts; marketing and pricing strategy; hospitality and tourism, accounting and finance, and personal finances"--web

site.

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

Their Eyes Were Watching God is a 1937 novel by African-American writer Zora Neale Hurston. It is considered a classic of the Harlem Renaissance of the 1920s, and it is likely Hurston's best known work.

Finally! A new OB/peds textbook that focuses on what LPNs must know. You'll find just the right depth and breadth of coverage with a focus on the knowledge and skills that LPNs need to know to practice safely.

PSYCHOLOGY: CONCEPTS AND CONNECTIONS, BRIEF VERSION, will help your students make the connections between key concepts in psychology and the connections between those concepts and their own lives. Spencer Rathus's warm and engaging writing style explains the fundamentals in ways that students can unders-

tand, and then goes a step further to show how those fundamentals relate to students' daily lives. Rathus's commitment to helping students learn goes beyond the text narrative and is reflected in the text's proven active learning system, PQ4R (Preview, Question, Read, Reflect, Review, and Recite). This system is seamlessly integrated into the book's companion Connections CD-ROM, the Book Companion Web Site, and the Study Guide--all of which are FREE with every new copy of the text. New "Learning Connections" and "Life Connections" sections in the text also include icons that cue students to interactive content on the Connections CD-ROM and the Book Companion Web Site. This seamless integration of text and technology enhances the active learning system, PQ4R, in the text, and gives students multiple ways to connect with the text's current research and relevant applications. In this edition, Rathus invites students to learn about the latest in evolutionary psychology, biology, diversity, and gender issues in psychology--in a text that is concise yet thorough.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of

his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Mesmeriz-

ing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

The complete body of knowledge for CIMA candidates and professionals The 2015 Certified Investment Management Analyst Body of Knowledge + Test Bank will help any financial advisor prepare for and pass the CIMA exam, and includes key information and preparation for those preparing to take the test. CIMA professionals integrate a complex body of investment knowledge, ethically contributing to prudent investment decisions by providing objective advice and guidance to individual and institutional investors. The CIMA certification program is the only credential designed specifically for financial professionals who want to attain a level of competency as an advanced investment consultant. Having the CIMA designation has led to more satisfied careers, better compensation, and management of more assets for higher-net-worth clients than other advisors. The book is laid out based on the six domains covered on the exam: I. Governance II. Fundamentals (statistics, finance,

economics) III. Portfolio Performance and Risk Measurements IV. Traditional and Alternative Investments V. Portfolio Theory and Behavioral Finance VI. Investment Consulting Process

This volume provides an introduction to medicinal chemistry. It covers basic principles and background, and describes the general tactics and strategies involved in developing an effective drug.

Emphasizing the conceptual development of statistical ideas, *MIND ON STATISTICS* actively engages students and explains topics in the context of excellent examples and case studies. This text balances the spirit of statistical literacy with statistical methodology taught in the introductory statistics course. Jessica Utts and Robert Heckard built the book on two learning premises: (1) New material is much easier to learn and remember if it is related to something interesting or previously known; (2) New material is easier to learn if you actively ask questions and answer them for yourself. More than any other text available, *MIND ON STATISTICS* motivates students to develop their statistical intuition by focusing on analyzing data and

interpreting results as opposed to focusing on mathematical formulation. The new edition of this exciting text, enhanced with new material and features, appeals to a wide array of students and instructors alike.

The perfect balance of science and story Brief chapters are written like science news articles, combining compelling science with intriguing stories. The Second Edition features NEW stories on exciting topics such as CRISPR and the human microbiome, and expanded coverage of the course's most important content areas. *Biology Now* is written by an author team made up of a science writer and two experienced teachers. Expanded pedagogy in the book and online encourages students to think critically and engage with biology in the world around them.

The second edition of the *Impact Evaluation in Practice* handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world exam-

ples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy

makers looking to build better evidence around what works in development.

**Fundamentals of Human Resource Management: Functions, Applications, Skill Development** helps students of all majors build the skills they need to recruit, select, train, and develop employees. Bestselling authors Robert N. Lussier and John R. Hendon explore the important strategic function HR plays in today's organizations. A wide variety of applications, self-assessments, and experiential exercises keep students engaged and help them see the relevancy of HR as they learn skills they can use in their personal and professional lives. The Second Edition includes 13 new case studies and new coverage of the agile workplace, generational differences, gamification, social media, and diversity and inclusion. This title is accompanied by a complete teaching and learning package. Contact your SAGE representative to request a demo. Digital Option / Courseware SAGE Vantage is an intuitive digital platform that delivers this text's content and course materials in a learning experience that offers auto-graded assign-

ments and interactive multimedia tools, all carefully designed to ignite student engagement and drive critical thinking. Built with you and your students in mind, it offers simple course set-up and enables students to better prepare for class. Assignable Video with Assessment Assignable video (available with SAGE Vantage) is tied to learning objectives and curated exclusively for this text to bring concepts to life. LMS Cartridge (formerly known as SAGE Coursepacks): Import this title's instructor resources into your school's learning management system (LMS) and save time. Don't use an LMS? You can still access all of the same online resources for this title via the password-protected Instructor Resource Site. Learn more.

A lively exploration of current questions of gender and their application to students today.

An accessible approach to a modern Congress course

The classic apocalyptic novel that stunned the world.

Using no-nonsense language, realistic examples, easy-to-follow steps and practical exercises, this book guides students through various types of

public relations writing. A focus on ethical and legal issues is woven throughout, with examples and exercises that deal with public relations as practiced by corporations, non-profit agencies, and other types of organizations large and small. In addition, the book addresses the most comprehensive list of public relations writing formats to be found anywhere--from old standbys like news releases to electronic mail and other opportunities in new technologies. Laying the foundation for an integrated approach that touches on public relations advertising and direct mail, this second edition is divided into four parts. Part I deals with principles of effective writing useful in all disciplines. Part II focuses on news as the bridge an organization can build to its various publics. Part III takes you through a variety of writing formats and environments that provide an internal or controlled approach. Part IV is the wrap up that pulls together the various writing styles presented in this book as part of an integrated communication package. *Becoming a Public Relations Writer* is a different kind of textbook for college and university students. It pro-

vides writing instruction for people preparing to enter the profession and guides students with models and step-by-step patterns designed to increase competence and build confidence in students on their way to becoming public relations writers.

Rev. ed. of: *Foundations of psychiatric mental health nursing* / [edited by] Elizabeth M. Varcaro-lis, Margaret Jordan Hal-ter. 6th ed. c2010.

The perfect companion to *Introductory Medical-Surgical Nursing, 10th Edition*, this handy workbook helps students review and apply essential content from the textbook. With this resource, students will prepare for the challenges of today's exams and tomorrow's practice—from the hospital or clinic to the home or long-term care facility!

This innovative book prepares students for the NCLEX-PN exam with thorough content review and 3,000 practice questions. Silvestri provides readers with information on NCLEX-PN preparation, test-taking strategies and the NCLEX-PN from students' perspectives. A free CD-ROM contains all 1,600 questions from the book plus 1,400 additional questions.

Highly praised for its clear organization and approachable presentation, *Abrams' Clinical Drug Therapy, Twelfth Edition* continues a long tradition of guiding students and instructors through the practice of safe and effective medication administration. Expert pharmacology educators and clinicians explain the “why” behind each nursing action and emphasize individualized nursing care and drug therapy to promote optimal outcomes in every care setting. This updated edition is filled with case studies, concept maps, and other engaging features, and is complemented by robust online resources that reinforce understanding and establish a solid foundation for success from the classroom to the NCLEX® to clinical practice.

“This is not only the best environmental sociology text I’ve used, but it is the best text of any type I’ve used in college-level teaching.” —Dr. Cliff Brown, University of New Hampshire  
Join author Mike Bell and new co-author Loka Ashwood as they explore “the biggest community of all” and bring out the sociology of environmental possibility. The highly-anticipated Fifth Edition of *An Invita-*

*tion to Environmental Sociology* delves into this rapidly changing and growing field in a clear and artful manner. Written in a lively, engaging style, this book explores the broad range of topics in environmental sociology with a personal passion rarely seen in sociology books. The Fifth Edition contains new chapters entitled “Money and Markets,” “Technology and Science,” and “Living in An Ecological Society.” In addition, this edition brings in fresh material on extraction between core and periphery countries, the industrialization of agriculture, the hazards of fossil fuel production, environmental security, and making environmentalism normal.

Learn How to Design Effective Visualization Systems  
*Visualization Analysis and Design* provides a systematic, comprehensive framework for thinking about visualization in terms of principles and design choices. The book features a unified approach encompassing information visualization techniques for abstract data, scientific visualization techniques

Be ready to prescribe and administer drugs safely and effectively—and

grasp all the vitals of pharmacology—with the fully updated *Pharmacotherapeutics for Advanced Practice*, 4th edition. Written by pharmacology nursing experts, this easy-to-read text offers proven frameworks for treating more than 50 common diseases and disorders. Learn how to identify disorders, review possible therapies, then prescribe and monitor drug treatment, accurately. Based on current evidence and real-life patient scenarios, this is the perfect pharmacology learning guide and on-the-spot clinical resource. Absorb the key principles and practical methods for accurate prescribing and monitoring, with . . . NEW chapter on Parkinson's disease, osteoarthritis, and rheumatoid arthritis NEW and updated therapies, and updated and additional case studies, with sample questions NEW content on the impacts of the Affordable Care Act Updated chapters on complementary and alternative medicine (CAM) and pharmacogenomics Updated evidence-based algorithms and drug tables – Listing uses, mechanisms, adverse effects, drug interactions, contraindications, and monitoring parameters, organized by drug class; quick access to

generic and trade names and dosages Quick-scan format organizes information by body system Chapter features include: Brief overview – Pathophysiology of each disorder, and relevant classes of drugs Monitoring Patient Response section – What to monitor, and when Patient Education section – Includes information on CAM for each disorder Drug Overview tables – Usual dose, contraindications and side effects, and special considerations Algorithms – Visual cues on how to approach treatment Updated Recommended Order of Treatment tables – First-, second- and third-line drug therapies for each disorder Answers to Case Study Questions for each disorder – Strengthens critical thinking skills Selecting the Most Appropriate Agent section – The thought process for choosing an initial drug therapy Principles of Therapeutics unit – Avoiding medication errors; pharmacokinetics and pharmacodynamics; impact of drug interactions and adverse events; principles of pharmacotherapy for pediatrics, pregnancy/lactation, and geriatrics Disorders units – Pharmacotherapy for disorders in various body systems Pharmacotherapy in

Health Promotion unit – Smoking cessation, immunizations, weight management Women's Health unit – Including contraception, menopause, and osteoporosis Integrative Approach to Patient Care unit – Issues to consider when presented with more than one diagnosis Standard pharmacotherapeutics text for nurse practitioners, students, and physician assistants Ancillaries – Case Study answers, multiple choice questions and answers for every chapter, PowerPoints, Acronyms List

Written by a team of internationally renowned sociologists with experience in both the field and the classroom, *The Art and Science of Social Research* offers authoritative and balanced coverage of the full range of methods used to study the social world. The authors highlight the challenges of investigating the unpredictable topic of human lives while providing insights into what really happens in the field, the laboratory, and the survey call center.

The 4th edition provides a solid foundation in the concepts, assessment, and technical skills of critical care nursing. It includes an entire section focusing on skills that every critical

care nurse needs to use, such as ventilatory assistance and hemodynamic monitoring. The text also provides real-life case studies to help readers understand how concepts apply to critical care practice. New chapters on the hot areas of Nutrition and Comfort and Sedation reflect the real-world challenges of the critical care nurse. Introduction to Critical Care Nursing, 4th Edition also comes with a companion website with self-study exercises. Ideal for students as well as experienced nurses new to critical care. Instructor resources available; contact your sales representative for details. Clinical Alerts emphasize the procedures and issues encountered in the clinical setting. Laboratory Alerts detail both common and cutting-edge tests and procedures. Research Analysis with references incorporate studies on cultural diversity and complementary therapies. Nursing Care Plans provide examples of nursing care for specific disorders; they include nursing diagnoses, patient outcomes, nursing interventions, and rationales. Case Studies present actual cases highlighting the major discussions in each chapter with accompanying questions to help readers better un-

derstand how concepts apply to real life. Pathophysiology Flow Charts provide outcomes of particular injuries, disorders, and complex diseases. Geriatric Assessments alert the reader to the special critical care needs of the older patient. Drug Tables reflect the most current and most commonly used critical care drugs. Critical Thinking Questions challenge students' comprehension of the content. 2 NEW chapters on Nutritional Support and Comfort and Sedation cover hot topics in critical care nursing today. NEW! Two-color design and 85 new two-color line drawings enhance reader understanding. NEW! Evolve companion website supplements the text with numerous resources for instructors and learning tools for students, such as open-book quizzes for self-study and review. A NEW column of Rationales is included in Nursing Care Plans. Expansion of Gerontology content throughout the text increases the focus on this special population.

(Black & White version) Fundamentals of Business was created for Virginia Tech's MGT 1104 Foundations of Business through a collaboration between

the Pamplin College of Business and Virginia Tech Libraries. This book is freely available at: <http://hdl.handle.net/10919/70961> It is licensed with a Creative Commons-Non-Commercial ShareAlike 3.0 license.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer

malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Intermediate Accounting: IFRS Edition provides the tools global accounting students need to understand IFRS and how it is applied in practice. The emphasis on fair value, the proper accounting for financial instruments, and the new developments related to leasing, revenue recognition, and financial statement presentation are examined in light of current practice. Global Accounting Insights highlight the important differences that remain between IFRS and U.S.

GAAP, and discuss the ongoing joint convergence efforts to resolve them. Comprehensive, up-to-date, and accurate, Intermediate Accounting: IFRS Edition includes proven pedagogical tools, designed to help students learn more effectively and to answer the changing needs of this course.

The goal of this resource manual is to help students understand crime, the origins of criminological theory, the emergence of sociological criminology and the subcultures of delinquency. It also provides information on the different types of crimes that exist. In the aftermath of the financial crisis, capital management has become a critical factor in value creation for banks and other financial institutions. Although complex and subject to regulatory change, the strategic importance of capital management became apparent during the crisis and has moved the subject to the top of corporate agendas. Bank and Insurance Capital Management is an essential guide to help banks and insurance companies understand and manage their capital position. Bridging

the gap between theory and practice, it provides proven techniques for managing bank capital, as well as explaining key capital management perspectives, including accounting, regulatory, risk and capital management and corporate finance. It also shows how to analyze a firm's stakeholders such as depositors, policy holders, debt holders and shareholders, and manage their expectations, and how to align risk and capital management so as to best optimize the return on capital and preserve capital in periods of stress. Economic capital is also discussed in depth, as are the practicalities of bank and insurance M&A, and the book also shows how financial innovations can be used to optimise the capital position and how diversification effects are reflected in the capital position. This book will arm readers with the knowledge and skills needed to understand how capital management can improve capital structure and performance, achieving an optimal cost of, and return on capital, creating value as a result.
