Running head: CONCEPT ANALYSIS ON SPIRITUALITY Concept Analysis on Spirituality Sonia Williams Adelphi University Concept Analysis "A concept is an element used in the development of a theory" (Miller-Keane, 1997, p.362). Concepts are abstract which derived from particular attributes such as hope, love, desire (McEwen & Wills, 2007, p.52).

The present study aimed to explore the concept of spiritual health in health-related and nursing literature. Walker and Avant (Strategies for theory construction in nursing, Appleton & Lange, Norwalk, 1995) concept analysis method was used in this study. The results were categorized as antecedents, attributes, and outcomes of spiritual health.

Spirituality is a complex concept. This concept analysis adds some clarification by proposing a definition of spirituality that is underpinned by both conceptual and empirical research. Furthermore, exemplars of spirituality, based on prior qualitative research, are presented to support the findings.

Nursing care is believed to be holistic in nature. It entails the dimensions of physical, emotional, mental and spiritual care. The latter, the spiritual dimension is often neglected by nurses, although it is

considered to be the most essential of

The analysis is based on a sample of multidisciplinary research studies reflecting spirituality of African Americans. Findings indicate that African-American spirituality involves quintessential, internal, external, consoling, and transformative attributive dimensions. Findings are considered in relation to previous conceptual analyses of spirituality and suggest that defining attributes of African-American spirituality are both global and culturally prominent. Implications for practice and ...

Spiritual health is an important dimension of health and forms part of a comprehensive care. This study was conducted to redefine and clarify the components of spiritual health based on different worldviews through Walker and Avant's concept analysis method. Being given a life and a soul and having beliefs are the antecedents of spiritual health.

#### Spirituality A concept analysis by Fayth-An Gray on Prezi

Concept analysis was conducted through a comprehensive literature review and as a result 'caring presence' was identified as the core variable from which all the other characteristics of spiritual ...

Spirituality goes beyond religious or cultural boundaries. Spirituality is characterized by faith, a search for meaning and purpose in life, a sense of connection with others, and a transcendence of self, resulting in a sense of inner peace and well-being.

Transcript of Spirituality A concept analysis. Spirituality A concept analysis. Spirituality. The quality or state of being concerned with religion or religious matters : the quality or state of being spiritual; "of or relating to a person's spirit, religion, or religious beliefs".

A definition of spirituality is presented, and a model constructed from a review of the literature and reflection. Spirituality is defined as: that most human of experiences that seeks to transcend self and find meaning and purpose through connection with others, nature, and/or a Supreme Being,

which may or may not involve religious structures or traditions.

For the concept analysis of spiritual care, Pike recommends clarifying whether spirituality involves life meaning, ultimate concern, and relieving suffering. Except for the individual spiritual needs, while Petersen conducted a concept analysis of spiritual care for a child with terminal-stage cancer and identified one attribute as strengthening the relationship of the child with others [ 4 ].

#### **Spiritual Health: A Concept Analysis.**

We can thus formulate a working (operational) definition of the concept of spirituality as follows: Spirituality is the process of the full, adequate, proper, and harmonious development of one's spiritual capacities.
