Take steps NOW to stop smoking - NHS

Fatty tissue starts to build up, making it more likely that a person will experience a heart attack or stroke. Quitting smoking can help reverse these effects and promote a healthier heart in the ...

What to expect when you quit smoking - Better Health Channel

Jane began smoking when she was 12. She finally beat her addiction to nicotine 16 years ago. I sang in folk clubs and bands with

my friends. I noticed smoking was affecting my singing. I tried to stop so many times, but every time I gave in. Then I went into hospital with pneumonia. My chest X-ray showed I had emphysema and COPD.

Stopping smoking lets you breathe more easily. People breathe more easily and cough less when they give up smoking because their lung capacity improves by up to 10% within 9 months. In your 20s and 30s, the effect of smoking on your lung capacity may not be noticeable until you go for a run, but lung capacity naturally diminishes with age.

What happens after you quit smoking? A timeline

Cigarettes are addictive, and self-control alone might not be enough for you to stop entirely. Give yourself a better chance of success by using nicotine replacement therapy (NRT). This is available on prescription from your GP, from your local stop smoking service or from a pharmacist. You could also consider trying e-cigarettes.

What Happens When You Quit Smoking: A Timeline of Health ...

Here are some tips and tricks: Check out these three 'mental strategies' that might help you combat cravings and stay motivated. Think of your willpower as a muscle – the more you use it, the stronger it gets! But keep in mind that just like real... If you feel your willpower fading, remind yourself ...

Giving up smoking can be difficult, but there are some things which can support you: Stop smoking services offering one-to-one help, as well as group sessions. Nicotine replacement therapy (NRT), such as patches or gum. Medicines such as bupropion or varenicline.

Stop smoking medicines, such as nicotine replacement therapy (NRT) and the prescription tablets Zyban (bupropion) and Champix (varenicline), can double your chances of quitting successfully. They also seem to help limit weight gain in the first few months. E-cigarettes have become a very popular stop smoking aid.

Quitting tips List your reasons to quit. Tell people you're quitting. If you have tried to quit before, remember what worked. Use stop smoking aids. Have a plan if you are tempted to smoke. List your smoking triggers and how to avoid them. Keep cravings at bay by

keeping busy. Exercise away the ...

For many people, an important aspect of giving up smoking is to find alternate ways to handle these difficult feelings without turning to cigarettes. Even when cigarettes are no longer a part of your life, the painful and unpleasant feelings that may have prompted you to smoke in the past will still remain.
