The definitive book on Apache Kafka

Kafka 2.3.0 includes a number of significant new features. Here is a summary of some notable changes: There have been several improvements to the Kafka Connect REST API. Kafka Connect now supports incremental cooperative rebalancing. Kafka Streams now supports an in-memory session store and window store.

Must be unique within a single kafka cluster * port: The kafka port, can be assigned randomly, but if the port is lower than 1024 kafka must be started as root * zookeeper.connect: Zookeeper address on the form hostname:port/path where path is an optional Zookeeper path to use as a chroot environment for the Kafka cluster * log.dirs: Kafka persists all messages to disk, stored in the path ...

eBook: Kafka: The Definitive Guide: Real-Time Data and Stream Processing at Scale PDF by Gwen Shapira, Neha Narkhede, and Todd Palino About this Premium eBook: Every enterprise application creates data, whether it's log messages, metrics, user activity, outgoing messages, or something else.

Excellent technical guide to understand the essentials of Kafka. As usual with O'Reilly books, this guides uncovers the basics and most primordial architectural topics of using Kafka as part of a technical architecture. While the book does not cover Kafka Connect and Streams in deep, it serves as on boarding -definitive- guide on the subject.
