Thinking About Biology: An Introductory Laboratory Manual ...

The Introductory Biology Lab Manual is for non-science majors. The lab manual has been designed to give students a solid foundation using the scientific method in hands-on labs. The lab exercises are appropriate for 1-2 hour lab sessions or to follow a lecture. The labs are suitable for those students with little hands-on science experiences.

Introductory Biology I Lab Manual | Higher Education

The labs within the Introductory Biology Online Lab Manual are for non-science majors. The labs are designed to give students a solid foundation using the scientific method in hands-on labs. The lab exercises are designed to accommodate online introductory biology classes or for students that complete classes at home.

Introductory Biology I Online Lab Manual | Higher Education

This lab manual covers thirteen lab exercises for a one semester introductory biology lab class for non-science majors, pre-biology majors, or pre-allied health majors. It would benefit from at least two additional exercises to work for a 15 week semester and would benefit greatly from the addition of alternate lab exercises to enable instructors to tailor the lab content to the needs of their ...

Unfolding the Mystery of Life, Biology Lab Manual for Non ...

Introduction The scientific method is central to the study of biology: it is a process of acquiring and verifying

information through experimentation. The general steps of the scientific method are depicted in the figure below. The hypothesis, or suggested explanation for the observation, is the basis for setting up experiments.
