Magritte's work frequently displays a collection of ordinary objects in an unusual context, giving new meanings to familiar things. The use of objects as other than what they seem is typified in his painting, *The Treachery of Images* (La trahison des images), which shows a pipe that looks as though it is a model for a tobacco store advertisement.

Published in conjunction with a major exhibition organized by The Museum of Modern Art, New York, in collaboration with The Menil Collection, Houston, and The Art Institute of Chicago, *Magritte: The Mystery of the Ordinary, 1926–1938* focuses on the breakthrough Surrealist years of René Magritte, creator of some of the twentieth century's most extraordinary images.
