An examination of medicine's role in the consolidation of colonial rule in the Indian Raj.

As a boy growing up in rural Italy in the 1930s, Damon is experiencing the first stirrings of adolescence when he accidentally sees his mother having sex with the local Fascist commandant. His pain, anger, and confusion are uncomfortably intertwined with a compulsion to watch them, which becomes an obsession. Isolating himself from anyone who might help him understand what he's feeling, he channels his fury into his javelin, getting better and better until he is a local champion. But his success is fleeting, as wholly confused and caught up in his own anger, he ends up betraying and humiliating his friends. The Javelin Thrower is the story of an erotic education turned tragic, poisoned by the darkness running through Mussolini's Italy.

A rediscovered Italian masterpiece chronicling the author's experience as an infantryman, newly translated and reissued to commemorate the centennial of World War I. Taking its place alongside works by Ernst Jünger, Robert Graves, and Erich Maria Remarque, Emilio Lussu's memoir is one of the most affecting accounts to come out of the First World War. A classic in Italy but virtually unknown in the English-speaking world, it reveals, in spare and detached prose, the almost farcical side of the war as seen by a Sardinian officer fighting the Austrian army on the Asiago plateau in northeastern Italy, the alpine front so poignantly evoked by Ernest Hemingway in *A Farewell to Arms*. For Lussu, June 1916 to July 1917 was a year of continuous assaults on impregnable trenches, absurd missions concocted by commanders full of patriotic rhetoric and vanity but lacking in tactical skill, and episodes often tragic and sometimes grotesque, where the incompetence of his own side was as dangerous as the attacks waged by the enemy. A rare firsthand account of the Italian front, Lussu's memoir succeeds in staging a fierce indictment of the futility of war in a dry, often ironic style that sets his tale wholly apart from the Western Front of Remarque and adds an astonishingly modern voice to the literature of the Great War.

This book grounds ethics in the capacity for suffering shared by all sentient beings, and sees the avoidance and amelioration of suffering as the *prima facie* condition of moral interaction. Loewy sees social contract as originating in the original nurturing of individuals, and selfhood and autonomy as emerging in the embrace of beneficence. Communities thus have an implicit obligation to their members, which necessitates a just distribution of resources.

"The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised" -- from the Introduction by Pasquale Verdicchio

Vivid eyewitness accounts from 43 survivors from the Italian army's short-lived and disastrous campaign on the Eastern Front. Recaptures in the words and sober reflections of the men who fought there the harrowing experience of this lunatic mission in which the Italians suffered roughly 75,000 dead."

Gender in Translation is a broad-ranging, imaginative and lively look at feminist issues surrounding translation studies. Students and teachers of translation studies, linguistics, gender studies and women's studies will find this unprecedented work invaluable and thought-provoking reading. Sherry Simon argues that translation of feminist texts - with a view to promoting feminist perspectives - is a cultural intervention, seeking to create new cultural meanings and bring about social change. She takes a close look at specific issues which include: the history of feminist theories of language and translation studies; linguistic issues, including a critical examination of the work of Luce Irigaray; a look at women translators through history, from the Renaissance to the twentieth century; feminist translations of the Bible; an analysis of the ways in which French feminist texts such as De Beauvoir's *The Second Sex* have been translated into English.

This is the story of a love-smitten Charles; his friend Sam, the Phi Beta Kappa and former coat salesman; and Charles' mother, who spends a lot of time in the bathtub feeling depressed.

Book two in the Commissario Ricciardi series. Ricciardi has visions. He sees and hears the final seconds in the lives of victims of violent deaths. It is both a gift and a curse. It has helped him become one of the most acute and successful homicide detectives in the Naples police force. But all that horror and suffering has hollowed him out emotionally. He drinks too much and sleeps too little. Other than his loyal partner, Brigadier Maione, he has no friends. We're in Naples, 1931. In a working class apartment in the Sanita' neighborhood an elderly woman by the name of Carmela Calise has been viciously beaten to death. Commissario Ricciardi and Brigadier Maione arrive at the scene and start asking questions. No one wants to talk but slowly the neighbors let a few interesting facts slip out. Carmela Calise was moonlighting as a fortuneteller and moneylender. In her decrepit apartment she

would receive clients, among them some of the city's rich and powerful, predicting their futures in such a way as to manipulate and deceive. If economic ruin lurked in their futures, Calise was happy to help. For a price, of course. She had many enemies, those who were indebted to her, or had been manipulated by her lies, disappointed by her prophesies or destroyed by her machinations. Murder suspects abound in this atmospheric thriller, and Commissario Ricciardi, one of the most original and intriguing investigators in contemporary crime fiction, has his work cut out for him.

The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned

writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

Onde narra le peripezie e le disavventure di una famiglia cubana, i cui membri decidono di emigrare individualmente negli Stati Uniti. Attraverso straordinarie pennellate, l'autore descrive il braccio di ferro che per oltre mezzo secolo ha visto contrapporsi Fidel Castro e i diversi governi degli Stati Uniti sul tema dell'emigrazione, e lo fa tracciando un singolare parallelismo fra i tre esodi di massa che hanno caratterizzato la storia di Cuba. Il lettore viene letteralmente catapultato in una realtà fatta di rum, sigari, domino, sesso, droga, bolero e pescecani. Un libro su Cuba che non intende schierarsi né a destra né a sinistra, ma vuole soltanto essere solidale con le persone comuni, le stesse che, dovendo fare i conti con le circostanze, spesso ne rimangono intrappolate, se non addirittura soffocate.

"This bibliography of 1,050 entries brings together research on snow crab published in Japan, Russia, Canada, the United States, and other countries" -- preface.

*Racial Theories in Fascist Italy* examines the role played by race and racism in the development of Italian identity during the fascist period. The book examines the struggle between Mussolini, the fascist hierarchy, scientists and others in formulating a racial persona that would gain wide acceptance in Italy. This book will be of interest to historians, political scientists concerned with the development of fascism and scholars of race and racism.

In a community of shady local officials, corrupt businessmen and a crooked police force, our narrator's life spins into chaos and criminality. The town makes a murderer of him. The question is, who did he kill?

Collected from LaBossiere's regular column in *The Philosopher's Magazine*, this fascinating set of philosophical provocations assumes no background in philosophy and focuses on matters that are of popular interest to the general public, yet are also philo-

sophically significant.

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become

trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.
