The Mack MP8 13-liter engine at first glance seems to be very similar to any other modern day diesel power plant. It uses the standard emissions devices including the EGR system, DOC (Diesel Oxidation Catalyst), DPF (Diesel Particulate Filter), electronic injection and VGT (Variable Geometric Turbo). But, behind the scenes are some interesting details that make the engine unique.

### **Understanding the Mack MP8 - Engine Builder Magazine**

The Mack® MP8 engine is designed with heavy workloads in mind: a 13 liter engine with torque ratings from 1460 to 1860 lbs ... This direct injection system delivers ultra-precise control over fuel injection pressure, timing and volume. The result is more power and efficiency, with less engine noise. Save fuel, gain power and lower emissions.
