NEUROMUSCULOSKELETAL EXAMINATION AND ASSESSMENT

Neuromusculoskeletal Examination and Assessment focuses on the development of technical and clinical reasoning skills involved in differential diagnosis of joint, nerve and muscle tissues. It is designed for physiotherapy/manual therapy students and their teachers but is also ideal for those in the first years of their practice as an educational support for patient care.

Neuromusculoskeletal Examination and Assessment - 4th Edition

Musculoskeletal Examination and Assessment provides an invaluable guide to the technical and clinical reasoning skills involved in the differential diagnosis of joint, nerve and muscle tissues within a psychosocial model of health and illness. Three initial chapters outline the subjective and physical examination as well as the clinical reasoning process.
