Hogan Summary is a self-guided interpretation of individual strengths, values, and challenges. The report is a snapshot of interpersonal performance, organizational fit, and a primer for performance improvement and shifts in behavior.

The first to combine cognitive ability, bright- and dark-side personality, and values, the Hogan Judgment assessment consists of two brief measures related to verbal and numerical reasoning, three independent scales that assess non-cognitive attributes that influence how an individual approaches decisions, and an assessment of post-decision reactions, including responses to negative feedback.
