Somfy User Manuals Download - ManualsLib

All Somfy motors have a thermal sensor to protect the lifespan of the motors and to prevent overheating. As a guide, the motors will cease to function once it has been continuously used for about 3-4 minutes. When the blind or awning stops functioning, let the motor cool down for about 15-20 minutes before trying to activate the blind again.

Note: Somfy recommends 10-15 seconds but we found 5 seconds to work better. 3) Disconnect power for 2 Seconds 4) Connect power and then leave it on. The motor will rotate in one direction if the shade is between limits or will jog if at one of the programmed stops. 4) Press and hold the programming button (App. 10 sec) on any RTS remote until the
