Super Crunchers Why Thinking by Numbers is the New Way to ... Summary and reviews of Super Crunchers by Ian Ayres

Munchers was a series of educational/e-entertainment computer games produced by the Minnesota Educational Computing Consortium (MECC) for several operating systems. They were popular among American schoolchildren in the 1980s and 1990s and were the recipients of several awards.

According to Ayres, as super crunching becomes increasingly more pervasive, "the most important job left to humans" is to use our minds and our intuition to guess at what variables should and should not be included in statistical analysis. A well-programmed computer may be able to solve many types of problems better

Super Crunchers - Forbes

"Super Crunchers shows that data-driven decisionmaking is not just revolutionizing baseball and business; it's changing the way that education policy, health care reimbursements, even tax regulations are crafted. Super Crunching is tru-

ly reinventing government.

Super Crunchers For a software firm that prides itself on discretion, this was no way to make a splash. Palantir Technologies in Palo Alto, Calif. had to apologize in mid-February for having its...

Also by Ian: New York Times Best-Seller: SUPER CRUNCHERS: WHY THINKING-BY-NUMBERS IS THE NEW WAY TO BE SMART. The book that shows that a new thinking by the numbers—analyzing millions of bytes of information—provides people with greater insight into human behavior and allows them to predict the future with staggeringly accurate results. They are the Super Crunchers. From Internet sites like Google and Amazon that know your tastes better than you do, to a physician's diagnosis and your child's education, to boardrooms and government agencies, this new breed of decision maker is calling the shots.

Super Crunchers

Super Crunchers (2007) was written in the same vein as a Malcolm Gladwell book or the related Freakonomics book. This means its aim was to be a non-fiction best seller for the chattering NPR lis-

tening classes of which I admit I do belong too.

They are the Super Crunchers. From internet sites like Google and Amazon that know your tastes better than you do, to a physician's diagnosis and your child's education, to boardrooms and government agencies, this new breed of decision makers are calling the shots. And they are delivering staggeringly accurate results.
