More than simple conduits for tax avoidance and evasion, tax havens actually belong to the broad world of finance, to the business of managing the monetary resources of individuals, organizations, and

countries. They have become among the most powerful instruments of globalization,...

Tax havens are now an essential component of financial and economic globalization, but their impact has been uneven. We distinguish the impact they have had on the developed world, which we discuss in this chapter, from their impact on developing countries, which is the subject of the next chapter.
