[The Economic History of China \(PDF\)](#)

The economy of the People's Republic of China, described as socialism with Chinese characteristics since the 12th National Congress of the Communist Party of China in 1982, is a mixed socialist market economy which is composed of state-owned enterprises and domestic and foreign private businesses and uses economic planning. The income generated by state-owned enterprises accounted for about 40 ...

[The Rise and Future of China as an Economic Power](#)

One of the major changes of 1978 was China's sharp turn toward participation in the international economy. While in the 1970s there had been a resumption of the foreign trade that had been largely halted in the late 1960s, along with far-more-active and Western-oriented diplomatic initiatives, the changes during and after 1978 were fundamental.

The economic history of China is covered in the following articles: Economic history of China before 1912, the economic history of China during the ancient China and imperial China, before the establishment of the Republic of China in 1912. Economy of the Han dynasty (202 BC - AD 220) Economy of the Song dynasty (960-1279)

China's Growth: A Brief History. China has accomplished a remarkable feat in transforming itself from one of the world's poorest countries to its second largest economy in just 30 years. Yet ...

Before the eighteenth century, China's economy shared some of the features, such as highly productive agriculture and sophisticated markets, found in the most advanced regions of Europe.

The economic expansion of the 18th century brought rising demand for silver and copper. Although domestic production of copper increased, silver was primarily obtained from abroad. After 1684 the net balance of trade was consistently in China's favour, and silver flowed into the Chinese economy.

[ECONOMIC HISTORY AND THE ECONOMY OF CHINA](#)

This book is a densely packed, extremely fair, and very thorough economic history of China. It deals heavily with money, coinage, finance, fiscal policies, and government management of the economy. It is somewhat less thorough on production and trade; other books cover those subjects.
