Some of the rocks we see around us are millions of years old. Rocks don't stay the same forever, though. Rocks are changing and becoming new rocks all the time. Inside this book, readers will follow a clear, accessible, step-by-step journey through Earth's rock cycle. They will find out how igneous rock forms from magma following a volcanic eruption. Then they will explore how the igneous rock is eroded by rain to become sediment that eventually forms new sedimentary rock. When Earth's crust moves, the sedimentary rock is crushed, baked, and transformed into metamorphic rock deep underground. Finally, completing the cycle, the metamorphic rock is heated and melted to once again become magma. Filled with information perfectly suited to

the abilities and interests of an early elementary audience, this colorful, fact-filled volume gives readers a chance not only to learn, but also to develop their powers of observation and critical thinking. From stunning photographs to high-interest facts, this book makes learning about Earth's ever-changing rocks a lively, engaging experience.

We've all been there; what seemed like the perfect man or woman at the time has left our heart in pieces. The weeks following a breakup are usually consumed by unbearable grief, hours in bed and multiple cartons of Ben and Jerry's. Rather than keep up this vicious cycle following the demise of one's relationship, Cardon offers various ways to break the cycle and move on in "Breakups Blow!" In a humorous, honest and heartfelt manner, Cardon uses her personal experiences and heartbreaks to help readers move through their own breakup wounds. The author feels that she has done the legwork on what eases the pain of a broken heart, and she has included it in "Breakups Blow!" to help her fellow

woman. After reviewing a journal she had kept over the years, Cardon began to notice a pattern to her relationships. "My patterns were astounding, and with each mind-numbing breakup, I learned through trial and error what works for moving forward and what keeps you stuck," Cardon says. "I wish I had a book like 'Breakups Blow!' when I was going through my breakups."

What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than "soldier on," he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The question of "Why?" began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book *W H O L E* - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. *W H O L E* is your companion as you review the past, balance all areas of your life, and begin to create anew. *W H O L E* prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships,

work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. W H O L E allows you to make sense of the pieces of your life as part of the greater being that is You. W H O L E presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. W H O L E literally answers the question, "What was I thinking?" "To know "whole" in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be WHOLE."
