PDR: Tutorial 1: Introduction to UNIX: VirtualBox Use
Tutorial 1: Introduction to MOA. by Albert Bifet, Richard Kirkby, Bernhard Pfahringer on August 15, 2017 using MOA 2016.04. Getting Started. This tutorial is a basic introduction to MOA. Massive Online Analysis (MOA) is a software environment for implementing algorithms and running experiments for online learning from evolving data streams.

Tutorial 1: Introduction to MOA – MOA
Implementation using Delay loops. Using this approach, we would first read the Analog Input and signal the motor, then send the SMS and delay for 20 seconds.The next loop cycle (reading Analog Input again) would happen after 20 whole seconds. This is an extremely bad design. Implementation using the commonly used millis() function (On the arduino)

(Part 1) HeavyBid Tutorial: Introduction to the HeavyBid Basic Tutorial. Tutorial detailing the basic steps required to use HeavyBid to create an estimate for a job.

(Part 1) HeavyBid Tutorial: Introduction to the HeavyBid ...
- A quick introduction to the COM standard, and the problems it was created to solve. You don't need to know this to use COM, but I'd still recommend reading it to get an understanding of why things are done the way they are in COM. Definitions of the Basic Elements - COM terminology and descriptions of what those terms represent.

Introduction to COM - What It Is and How to Use It ...

Recurrent Neural Networks Tutorial, Part 1 – Introduction to RNNs Recurrent Neural Networks (RNNs) are popular models that have shown great promise in many NLP tasks. But despite their recent popularity I've only found a limited number of resources that throughly explain how RNNs work, and how to implement them.

Recurrent Neural Networks Tutorial, Part 1 – Introduction ...
OpenCV-Python Tutorials¶. OpenCV introduces a new set of tutorials which will guide you through various functions available in OpenCV-Python. This guide is mainly focused on OpenCV 3.x version (although most of the tutorials will work with OpenCV 2.x also).. A prior knowledge on Python and Numpy is required before starting because they won't be covered in this guide.

Introduction to OpenCV-Python Tutorials — OpenCV-Python ...
Using std::endl can be a bit inefficient, as it actually does two jobs: it moves the cursor to the next line, and it "flushes" the output (makes sure that it shows up on the screen immediately). When writing text to the console using std::cout, std::cout usually flushes output anyway (and if it doesn't, it usually doesn't matter), so having std::endl flush is rarely important.

1.5 — Introduction to iostream: cout, cin, and endl ...
3. An Informal Introduction to Python¶. In the following examples, input and output are distinguished by the presence or absence of prompts (>>> and ...): to repeat the example, you must type everything after the prompt, when the prompt appears; lines that do not begin with a prompt are output from the interpreter.
