A virginit test is the practice and process of determining whether a girl or woman is a virgin; i.e., to determine that she has never engaged in, or been subjected to, sexual intercourse. The test typically involves a check for the presence of an intact hymen, on the flawed assumption that it can only be torn as a result of sexual intercourse.

Download Free Verginit Verginit Virginit is the state of a person who has never engaged in sexual intercourse. There are cultural and religious traditions that place special value and significance on this state, predominant-

ly towards unmarried females, associated with notions of personal purity, honor and worth.

What Happens When You Lose Your Virginity?

Virginity | Definition of Virginity by Merriam-Webster

Virginity definition is - the quality or state of being virgin; especially : maidenhood.

For females, virginity used to be defined by an intact "hymen." The hymen is located about a half-inch inside the vagina. Not all

girls are born with hymens, which makes this definition of virginity somewhat misleading. Another definition of a virgin is a girl whose vagina has not been penetrated sexually.

Virginity - Wikipedia

When you lose your virginity isn't as big a deal as making sure you and your partner are ready for sex. If you have sex just to fit in, it probably won't be a very good experience. It's better to wait to have sex until you feel totally ready — and are prepared for some of the possible consequences of sex (like

pregnancy or STDs).
